Description

3.0L Mercruiser Engine Re-powered into a Chivers Thunderbird with a new [Alpha Sterndrive](#) by Hitech Marine Centre. Lower fuel consumption, greater power and better reliability than before was the result.

Far lower running and maintenance costs means that the vessel is used a lot more rather than being parked in the shed.

This heavy hull jumps onto the plane with a mere touch of throttle and the confidence it has given the happy owners is priceless.

At cruising speeds it consumes only 11 - 13 litres per hour and when pushed can comfortably run between 36 and 38 knots

For more information & the best Mercruiser Engine deals, see the certified team at...Australia's Number One Mercruiser Dealer of the Year
